Welcome to the Final Fantasy X Any% Speedrun Notes. These notes are the work of a lot of very amazing people who have helped me compile everything here into one document.

This version of the notes are stripped down for CSR usage and do not contain references to cutscenes for FMVs.

Some beginning information about the run:

- You should be able to complete the first run that you do, as long as you follow the notes exactly. Misreading them can lead to runs that cannot complete. Don't try to do something else because you think it will also work, unless you've tried it before. Examples of this include using Marbles instead of Gems on Biran and Yenke - even though Marbles will still kill, you won't get the overkill which gives us required drops. Information about WHY we do these things are not present in these notes, as they are outside the scope of this document. If you want additional reading, you can check out [this site by Grayfox](#) or join us in the [Discord](#) and ask - we don't bite.
- Common mistakes usually end up being gridding mistakes - some of these are unrecoverable. It sucks, it happens, just realize for next time and double check your grids before doing anything.
- The run is very long. Make sure you have all the supplies you need. If you want a shorter run, use the Cutscene Remover Mod, which is its own category. These notes will still work.
- Blitzball sucks. If you lose, it's awful, but the run is still very completable, only loses about 1-2 minutes. Don't worry about it too much.
- **Learn how to do MRR Skip First.** These sets of notes require that you do not fail the skip. A tutorial video can be found [here](#). Practice saves can be found in the [Discord](#).
- These notes do not include how to RNG Manipulate, as the actions taken when doing that will vary depending on what the seed is and how the run goes. Do not worry about it when starting out. Once you get a feel for the run, if you want to give it a go, then ask in the [Discord](#).
- Have fun!

Some information about how these notes are laid out:

- There are a few acronyms used throughout the run.
 - **SD: Skip Dialogue.** During some cutscenes, some of the dialogue is skippable. As soon as the text finishes appearing on the screen, you can hit **Confirm** to cause it to disappear. This will stop the Voice Over lines from completing, causing the cutscene to progress faster. As a result, you can mash during this to progress faster.
 - **CS: Cutscene.** In game rendered cutscene. Can't do anything about it, just take a break. Usually they will have the approximate time that the cutscenes take, so you can plan your breaks better. These are timed for PS2.
 - **FMV:** Full Motion Video. Pre-rendered cutscene. Can't do anything about it (usually), just take a break. Usually they will have the approximate time that the cutscenes take, so you can plan your breaks better. These are timed for PS2.
 - **Skippable FMV: Skippable Full Motion Video.** Pre-rendered cutscene, but you can skip these if you are on PC. They still have times, because these are not skippable on PS2.
 - **Touch the Save Sphere:** Touching Save Spheres will full heal you. Touch the save sphere, and then cancel out.
- Read each page as such: Left column, then right column, then the next page. There are some instances where there will be an instruction box that takes up both columns - in this case, do whatever is above the instruction box first (left column, then right column), then do whatever is below the instruction box the same way (left column, then right column)
- Each bullet point is their own item. Do what it says there before going to the next one.
- There are instances where you have to get an item, or overdrive, etc before progressing. If the notes say to do so... **Do So**. These notes don't contain many backup strats.

Some information about Spheres:

- The sphere grid route requires 45 Power Spheres. There are 37 Power Spheres that are guaranteed drops during the course of the run, so you need 8 "bonus" spheres in order to be able to complete the run. It will be stated which ones are guaranteed and which values are bonuses. Keep track of the bonuses in order to determine at the stated points if you're low and to do the backup strats then. The guaranteed Power Spheres are:
 - Tros - 2
 - Besaid Dingos - 2
 - Besaid Garuda - 1
 - Geneaux - 4
 - Sahagins - 17
 - Vouivre + Garuda - 2
 - Raldo - 1

- Wendigo - 2
- Bombs - 6
- The sphere grid route requires 17 Speed Spheres. For the most part it doesn't matter when you get them, but keep track of all the ones that you get dropped. There are points to get backup speed spheres that are stated throughout the run.
- These are the **Blitz Win** version of the notes. These notes have the strategies assuming that you have Won Blitzball. If you end up losing Blitzball, then you should switch to the **Blitz Loss** set of notes.

2. **Formation**: **Tidus**, **Auron**, **Kimahri**
3. Walk along the path, Flee encounters
4. Before Seymour Omnis, **Formation**: **Tidus**, **Auron**, **Yuna** (swap **Yuna** back in)

5. If you got **2 Return Spheres**:

- Customize:
 - **Auron**: Shimmering Blade → First Strike

6. Go up the steps

SEYMOUR OMNIS - 80,000 HP

- **Yuna**: Defend
- **Tidus**: Armor Break
- If Armor Break Hit:
 - **Auron**: Defend
- If Armor Break Missed:
 - Switch **Auron** for **Rikku**
 - **Rikku**: **Overdrive** Mix Arctic Wind/Lightning Marble/Bomb Core/Fish Scale + HiPot/MegaPot/XPot/Mega Phoenix
 - **Yuna**: Cure Mortiphasm
 - **Enemy**: Firaga x3, Blizzara
 - **Yuna**: Change Weapon to Wind Rod
 - **Tidus**: Armor Break
- **Yuna**: Summon **Bahamut**
- **Bahamut**: Attack

7. If **Rikku** still doesn't have **Overdrive Formation**: **Tidus**, **Auron**, **Rikku**, use Behemoth King or Adamantoise
8. **Formation**: **Tidus**, **Kimahri**, **Auron**
9. You can charge **Rikku**'s **Overdrive** on an encounter with a Behemoth King, Adamantoise or Barbatos (Escape with the others), flee from the rest.
10. Turn left onto the bridge, go onto the next screen
11. Complete the minigame, picking up the eggs and avoiding the crystals
12. If you don't have enough S.Lvl for Spare Change:
 - If you have a Special Sphere (rare drop from Seymour) reach it from **Kimahri** or **Rikku** and use the Special Sphere with **Yuna**
 - If you have a Return Sphere left and only missing one level, activate the MP node, Return to that, use last level to Move to HP node
 - If you don't have a Special Sphere, teach Spare Change to **Kimahri** or **Rikku** and use them
 - **Tidus** could haste them, but it'll drain his MP, so you need to use an extra elixir or two
 - Especially if **Tidus** needs to use Zombie Strike, it costs 10 MP
 - Forego Spare Change all-together and use **Yuna** and **Tidus** to Attack
 - They will likely miss a lot, so this will cost time
 - You won't die thanks to Auto-Life, this is just a time-loss

SPHERE GRID

• If you got 2 or 4 **Return Spheres**:

- Move ↓↓ to Agi node on the edge
- Agi+2
- Move ← x5 to the Acc node
- Agi+4 (be careful to not activate the Acc+2 Node)

- Attribute Sphere **Rikku**'s +3 Agi →
- Spare Change
- Move ↓
- Agi+4 (be careful to not activate the Acc+2 Node)
- Move → x6
- Agi+4

• **Tidus**: If you didn't get a **Zombie Strike** weapon:

- Move ↑ x5 to the HP sphere below **Zombie Strike**
- Level 4 Keysphere
- Move ↑ into the now empty L4 node
- **Zombie Attack**

- **Rikku**: If no **Overdrive**, use Skill Sphere to learn **Armor Break** ↑

EQUIPMENT

- If you got a **Lulu**/**Kimahri**/**Wakka**/**Rikku** **Zombie Strike** weapon:
 - Equip **Zombie Strike** Weapon
- **Do not equip **Zombie Strike** Weapon** on the first strikers **Tidus**/**Auron**/**Yuna**!
